

## Lattice ORAN Solution Stack Named 2023 Edison Awards Finalist

February 9, 2023

HILLSBORO, Ore.--(BUSINESS WIRE)--Feb. 9, 2023-- [Lattice Semiconductor](#) (NASDAQ: LSCC), the low power programmable leader, today announced that the Lattice ORAN™ solution stack was named a [2023 Edison Awards](#)™ finalist in the commercial technology category. Lattice ORAN is a toolkit of hardware, software, and IP that makes evaluating, developing, and deploying FPGA-based telecom systems and applications easier and faster. It enables robust control data security, flexible fronthaul synchronization, and low power hardware acceleration for secure, adaptable, Open Radio Access Network (ORAN) deployment.

"With the rapid adoption of 5G technology, flexible, safe, and secure networks are essential. Lattice ORAN is designed to accelerate ORAN deployment by helping customers secure data, accelerate network function, and achieve tight synchronization," said Matt Dobrodziej, Vice President of Segment Marketing and Business Development, Lattice Semiconductor. "We thank the Edison Awards for recognizing Lattice with this prestigious recognition of our work to deliver customer-centric innovation with low power, scalable, and secure solutions."

All nominations are reviewed by the Edison Awards Steering Committee with the final ballot being determined by an independent judging panel. The panel is comprised of more than 3,000 senior business executives and academics from the fields of product development, design, engineering, science, marketing, and education, as well as past winners.
