

The Low Power Programmable Leader

Fourth Quarter, 2020

Safe Harbor

This presentation contains forward-looking statements that involve estimates, assumptions, risks and uncertainties, including statements relating to our expectations about our systems solutions' offerings under the heading "Future" .

Factors that may cause actual results to differ materially from the forward-looking statements in this presentation include those risks more fully described in Lattice's filings with the SEC including its annual report on Form 10-K for the fiscal year ended December 28, 2019 and quarterly filings.

You should not unduly rely on forward-looking statements because actual results could differ materially from those expressed in any forward-looking statements. In addition, any forward-looking statement applies only as of the date on which it is made. The Company does not intend to update or revise any forward-looking statements, whether as a result of events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

of Use

Lattice Product Portfolio

BROAD FAMILY OF LOW POWER FGAs

GENERAL PURPOSE

Addresses a broad range of applications across multiple markets

- Lowest power and smallest package (6 x 6 mm) with 5G PCIe & GigE support
- Up to 150K LUTs with significant compute under 1 W and lowest power 5G SERDES

FPGA FAMILIES TAILORED FOR SPECIFIC NEEDS

VIDEO CONNECTIVITY

Optimized for high speed video and sensor applications

- First FPGA with hardened MIPI D-PHY
- Highest performance at lowest power

ULTRA LOW POWER

World's lowest power FGAs; Optimized for small form factor

- Static current as low as 25 uA
- World's most popular ultra-low power FPGA

CONTROL & SECURITY

Optimized for platform management & security applications

- 50% market share
- Highest I/O density

AVAILABLE NOW

LATTICE NEXUS

Next Generation FD-SOI FPGA Platform

- Low power leadership
- Edge computing ready
- Robust and reliable
- Smallest form factor
- Faster innovation cadence

Lattice Nexus is Changing the FPGA Landscape

Lattice's Expanded System Solutions

Bringing Additional Value to Our Customers

New Low Power Silicon

CrossLink-NX

Embedded Vision Processing

Built on the Lattice Nexus Platform

Optimized Low Power Architecture

Available now

MachXO3D

Robust Platform Security

Secure Hardware

Designed for NIST Compliance

Available now

Certus-NX

General Purpose Processing

Built on the Lattice Nexus Platform

Lowest power & smallest package with 5G PCIe

Customer samples delivered

New Value-Added Solutions and Software

Lattice mVision

Low Power Embedded
Vision

Flexible Image Sensor
Bridging and Aggregation

Image Processing Integration

Complete Solution
Enablement

Lattice sensAI

Low Power Edge AI

High Performance Inferencing
Under 1W

Supports Industry Standard
ML Frameworks
